

Final Product Focus Group

The following notes were taken by a focus group on the 25/03/21. This included myself and three other individuals. The Android APK was sent to them the day before to let them try it before the meeting over video call. The feedback was then recorded and summarized below.

Pros

- Feature are varied but also all useful
- Clear design, easy to and intuitive to use
- Data being shown is all useful
- Has a profession look to it
- Liked the layout of the predicted line-up screen with the two tabs for each team
- Liked that I added who to captain (player predicted to get highest score) into TOTW page
- Liked that it said when certain page's data was updated
- Colour Scheme

Cons / Questions

- Would have been nice to have a best predicted team with a budget constraint
- Need to have WIFI for the Images to load
- App breaks a bit when not connected to WIFI

Changes / Answers

- Make it a requirement to have WIFI to use the app
- Work on the app to have a budget constraint on the best team of the week predictor
